

# Digital Mode Logs

Here are my [digital mode logs](#). I haven't been working digital very long but the more I do, the more I enjoy it as I learn. If you want to be added to my logs, please call for me (W5JER) on the YSF America Link or my reflector at [YSF50301 Digital Radio](#).

These logs are hosted on my Proxmox server with a NocoDB Docker container.

If you want to shoot me a message on Discord before you call for me to make sure I am listening, you can do that. My ID is Geeked#1257.
